Racing-gear lever SC57

US05-RK-*

Anodized colours:
golden, titanium or black

Model	Type	Year
-------	------	------

CBR 1000 RR	SC57	'04 -
-------------	------	-------

Features:

- only reversed shifting possible
- gear lever with separate bearing for exact and quick shifting
- more ground clearance
- adjustable 'foot length'
- can be mounted with or without AS31GT
- mounting assembly kit included in delivery

Advantages:

- considerably more endurance as traditional gear levers
- eliminates vague shifting
