VB - Order Nr. Kit		LU-A60-RR-* resp. LU-A60-RR1-*
Colour code *		* => G = golden / S = silver / B = black
Handlebar height	860	+ 45 mm at minus 8° adjustment
Extension length		60 mm
Further extension options		not possible
Miscellaneous / please note!!	Mounting of basic alone not possible!	

GENERAL PRODUCT INFORMATION

The inclination angle of the VarioBar handlebar can be adjusted from +16° to - 16 °.
 Each angle adjustment (in 4° steps) changes the height for 17 mm.
 Due to the gear tooth forming, the extension can be exactly adjusted to the front or to the rear.

Please note that the adjust possibilities can vary depending on the model.
 When using longer brake hoses/ speed wires resp. when modifying the covering the handlebar offers more adjustment possibilities.

vb.accessories (optional)

Available on option:

Original GILLES TOOLING aluminium handlebar weights in two lengths and 5 colour variations (sale by pairs)

Advantages: less handlebar vibrations plus protection of the instruments and levers in case of the bike falling

Order no. LG-0-* : handlebar weights, original handlebar width: +/- 0

Order no. LG-20-* : ideal as handlebar enlargement + 20mm on each side

Order no. LG-0-*
