VB – Basic plus extension

Info: The handlebar can be used as well as sport handlebar when removing the extension.

General product informations

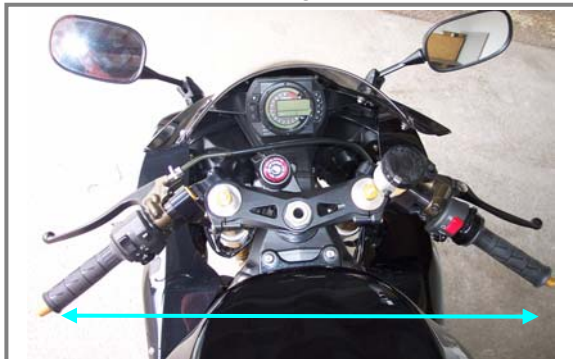

The inclination angle of the VarioBar handlebar can be adjusted from +16° to - 16 °.

For each angle adjustment (in 4° steps) the height changes of 17 mm.

Due to the gear tooth forming, the extension can be exactly adjusted to the front or to the rear.

Please note that the adjustment possibilities can vary depending on the model.

When using longer brake hoses/ speed wires resp. when modifying the covering the handlebar offers more adjustment possibilities.

Difference handlebar width bar end to bar end

View maximum height at minus 4°: +55 mm

AVAILABLE ON OPTION:

Original GILLES TOOLING Alu-handlebar weights in two lengths and 5 colour variations (sale by pairs)
