Order nr.

Mounting kit extension ABK-RN12-A

Colour code*: G = gold / S = silver / B = black

Standpipe clamp for fastening of serial steering damper is included in the mounting kit!

The inclination angle of the VarioBar handlebar can be adjusted from +16° to - 16°.

For each angle adjustment (in 4° steps) the height changes of 17 mm.

Due to the gear tooth forming, the extension can be exactly adjusted to the front or to the rear.

Please note that the adjust possibilities can vary depending on the model.

When using longer brake hoses/ speed wires resp. when modifying the covering the handlebar offers more adjustment possibilities

comparison basic to extension

Handlebar weights (optional):

→ Reduce vibrations and protect the instruments in case of the bike falling down

→ available in two lengths and five anodized colours

Order no. : LG-0-* or LG-20-*

LG-20-* ideal to enlarge the handlebar
