vb.accessories (optional)

Available on option:

Original GILLES TOOLING aluminium handlebar weights in two lengths and five colour variations (sale by pairs).

Advantages: less handlebar vibrations plus protection of the instruments and levers in case of the bike falling.

Order no. LG-0-* : handlebar weights,

original handlebar width: +/- 0

Order no. LG-20-* : ideal as handlebar enlargement + 20mm on each side

general product information

- The inclination angle of the VarioBar handlebar can be adjusted from +16° to -16°.
- Each angle adjustment (in 4° steps) changes the height for 17mm.
- Due to the gear tooth forming, the extension can be exactly adjusted to the front or to the rear.
- Please note that the adjust possibilities can vary depending on the model.
- When using longer brake hoses/speed wires resp. when modifying the covering the handlebar offers more adjustment possibilities.
